Ideation Report Template

Introduction:

I need to create a portfolio

- It can be a physical book or binder that organizes samples of my work, or an online portfolio with electronic files.

- Portfolios are a great way to demonstrate the competencies I would list on a resume or talk about in an interview.

- Outside of a job or client search, archiving samples of my work to a portfolio is a great way to keep track of my accomplishments.

User Interface Design and Prototype:

ABOUT ME
